

CHRONIC DISEASE MANAGEMENT (CDM) TARIFFS

Submission of Patient Care Treatment Forms

Effective August 2014, the following remain as acceptable options for general practitioners in fulfilling the requirements for billing tariffs 8431, 8433, 8434, and 8435.

1. **Mail:** Paper copies of the completed *Patient Care Treatment Forms* can be mailed to the Claims Unit at 300 Carlton Street.
2. **Drop off:** Paper copies of the completed *Patient Care Treatment Forms* may be dropped off at 300 Carlton Street.
3. **Completion of the eForm:** The eForms can be completed on-line and electronically submitted directly to a secure government repository. The eForm can be found at:
<http://www.gov.mb.ca/health/primarycare/providers/chronicdisease/docs/patientcaretreatmentforms.pdf>.
4. **EMR data extract:** General practitioners using a Manitoba-approved Electronic Medical Record (EMR) system may have the option of submitting the supporting information through a monthly data extract from their EMR, rather than completing the *Patient Care Treatment Form* to substantiate their claim. This option is available to PIN sites and other sites that have met the criteria for electronic submission and been informed of this by Manitoba Health, Seniors and Active Living. For additional information regarding this option, please contact the Primary Health Care Branch at 204-788-6732, or by email at phc@gov.mb.ca.

Physicians are reminded that CDM tariffs are payable only to the general practice physician who has provided the majority of the patient's ongoing comprehensive care, in relation to the management of the chronic disease, for the preceding twelve (12) months.
