Mrs. ROWAT asked Written Questions (Nos. 26 to 30) for reply to the following:

26. Could the Minister of Health explain what the delay is in implementing and mandating a province-wide universal newborn hearing screening program?
 27. Will the Minister of Health provide details of the great deal of empirical research that identifies the outcomes of early intervention for children with hearing loss and attests to the benefits of early intervention?
 28. Could the Minister of Health provide evidence to dispute the contention that early identification of hearing loss will result in fewer requirements for services as the child enters school? For example, signing interpreters, deaf and Hard of Hearing consultants, Ministry involvement, school classroom modifications to reduce sound levels, etc.
 29. Could the Minister of Health provide a detailed explanation if she does not agree that universal newborn hearing screening can be performed by any audiologist or public health nurse provided they are properly trained?
 30. Could the Minister of Health explain what steps would have to be taken to implement universal screening programs in Winnipeg similar to those in rural Manitoba?
